Executive Director

STATE OF NEW JERSEY
DEPARTMENT OF LAW AND PUBLIC
SAFETY
DIVISION OF CONSUMER AFFAIRS
STATE BOARD OF CHIROPRACTIC
EXAMINERS
DOCKET NO.

In the Matter of)

Administrative Action)

DR. EDWARD R. DIETZ, JR.)

CONSENT ORDER)

Licensed to Practice)
Chiropractic in the)
State of New Jersey)

This matter was opened to the State Board of Chiropractic Examiners ("Board") upon receipt of information that the respondent caused to be published an advertisement entitled "Life Can Take A Dangerous Twist" which allegedly contains false, misleading or deceptive information.

It appearing that the parties wish to resolve this matter without recourse to formal proceedings and for good cause shown;

IT IS ON THIS 18th DAY OF April, 1991,

HEREBY ORDERED AND AGREED THAT:

1. Respondent shall cease and desist from publishing any advertisement which contains information or claims that there is a correlation between vertebral subluxation and SIDS (sudden

infant death syndromne or crib death).

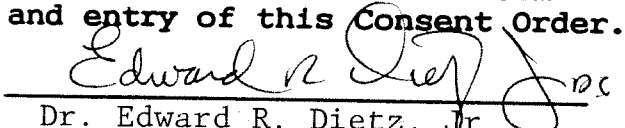

2. Respondent shall cease and desist from publishing any advertisement which makes an offer of "complete" post-partum care in view of the fact that not all aspects of post-partum care are within the scope of chiropractic.

3. Respondent shall cease and desist from publishing any advertisement that claims that a chiropractic examination can "determine" that a vertebral subluxation occurred during the birth process.

4. Respondent shall cease and desist from publishing any advertisement which claims that chiropractic care can prevent SIDS.

Charles Bender, D.C.
President
State Board of Chiropractic
Examiners

I have read the within Consent
Order and understand its terms.
I hereby consent to the form
and entry of this Consent Order.

Dr. Edward R. Dietz, Jr.

A DANGEROUS TWIST

Mrs. B...

You want the best for your newborn. So you follow all the prenatal recommendations - examinations, care and diet before the birth and the important follow-up exams afterward. But, you may be overlooking an important part of postpartum care.

The compression and twisting motion during the birth process can cause injuries to a newborn's spinal column and brain stem. This has been shown to be a contributing factor in

- SIDS (sudden infant death syndrome or crib death)
- Vertebral Subluxation

A chiropractic examination can help determine if any injury occurred during birth. It is a safe, painless and inexpensive procedure. Call our office today for more information on complete postpartum care.

We take your health as seriously as you do.

Dear Ms Rohr,

I received the Administrative Action and consent order today. I attended one philosophy workshop in which Dr. Tarantino a board member was a guest speaker and we were suppose to get an update on the State of New Jersey Practice Laws. As I was out of practice in New Jersey since 1988, I was interested to see what this board member had to say. I re-opened a new office for two weeks in Manalapan but my continued pain syndrome from the car accident that disabled me, caused me to close the New Jersey office. I was approached by Dr. Dubel to combine everyones advertising dollars as a group. The idea was to educate the public. When this as hit the paper my stomach got sick as I knew immediately it was in poor taste and that action would be taken.

In closing I wish to state that the five state active license I hold have never had disciplinary, and if this action can be dismissed it would surely be reward for the years of not having to become before the board.

In closing I sign this form with reservation to end this matter on my behalf. I reserve the right to appeal this matter at a future date if this should have a devastating affect on my professional career.

Sincerely,

Edward R. Dietz, Jr. D.C.
